Pamphlets on Biology Volume 523; Kofoid Collection

By Books Group

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1884 Excerpt: .brings to light a most interesting series of elaborately modified tongues, the exact correlation of diet with which offers material for future study. Returning to the ground pattern we can see a close resemblance between it and the tongues of some of the motmots and todies (see fig. 74), in which birds it is rather flat and the thin horny translucent tip constitutes as much as one-half of the organ. A curious little variation is seen in the titmice (see fig. 123). In these birds the cartilaginous tips of the ceratohyals project through the tip of the tongue and with two lateral projections form what has been likened to a four-tined pitchfork. The nuthatches (fig. Balrd, S. F. Review of American Birds, November, 1864, pp. 161-162. 5 Beddard, P. B. Ibis, eer. 6, No. 3, 1801, pp. 610-512, Tongue of Zotteropi. 121) modify this by having...

Reviews

An extremely wonderful ebook with lucid and perfect explanations. I was able to comprehend almost everything using this composed e publication. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Kimberly Carroll**

It is one of the best books. Better than ever, though I am quite late in starting to read this one. You won't feel monotony at any moment of the time (that's what catalogues are for regarding in the event you check with me).
