Reviews

*Thorough guide! Its this sort of excellent read. It is really simplified but unexpected situations in the 50 % in the book. You are going to like just how the blogger create this publication.
(Prof. Lela Steuber)*

TAKE TIME: MOVEMENT EXERCISES FOR PARENTS, TEACHERS AND THERAPISTS OF CHILDREN WITH DIFFICULTIES IN SPEAKING, READING, WRITING AND SPELLING: 2008 (5TH REVISED EDITION)

Robinswood Press. Spiral bound. Book Condition: new. BRAND NEW, Take Time: Movement Exercises for Parents, Teachers and Therapists of Children with Difficulties in Speaking, Reading, Writing and Spelling: 2008 (5th Revised edition), Mary Nash-Wortham, Jean Hunt, The activities in this well-established, highly-regarded and widely-used book can assist with a wide range of conditions, including diagnoses of Dyslexia, Dyspraxia, or Attention Deficit Hyper-activity Disorder (ADHD). Following a valuable introductory background, Take Time provides a series of thoroughly tested and purposeful exercises that tackle fundamental developmental problems behind learning difficulties. The number of children who are hampered by language impairment in speaking, reading, writing or spelling is surprisingly high. Provided that appropriate action is taken, however, such problems will not usually inhibit a child's long term progress. Professional advice and involvement is important, but parents themselves can actively participate in the process of helping the child to overcome difficulties by using this book. The main features of Take Time are: 'Pointers' to clarify areas of difficulty, including timing and rhythm, direction, spatial orientation and movement, sequencing, laterality and fine motor control needed for clear speech and successful writing and reading. general exercises for co-ordination and body awareness. specific exercises to help with particular areas of difficulty and individual situations. The main aim of the range of innovative movement exercises and other activities described in Take Time is that they can be tailored specifically to individual situations. The book acts as a step-by-step guide for parents, teachers, therapists and helpers, pin-pointing and encouraging the use of particular exercises to help develop motor control, co-ordination, directional awareness, balance and rhythm, yet in an enjoyable and holistic way. It is this process which has resulted in the enormous popularity of the book, especially for use by parents. It is recommended by many centres concerned with...
