Morphophonology

By Johannes Mürter

GRIN Verlag GmbH Jan 2010, 2010. Taschenbuch. Book Condition: Neu. 211x146x8 mm. This item is printed on demand - Print on Demand Neuware - Seminar paper from the year 2009 in the subject English Language and Literature Studies - Linguistics, printed single-sided, grade: 1,7, LMU Munich (Institut für Englische Philologie), course: Proseminar 'Morphology', language: English, abstract: In simplest terms, Morphophonology is the branch of linguistic theory which studies how allomorphs are phonologically represented. The question whether this particular subject should best be analysed as part of phonological or morphological theory seems in this respect irrelevant, as Morphophonology can be regarded as an interface between these two branches of linguistics and thus, regarding informative value, can be viewed equally well from either perspective (Kortmann 2005: 89). Later, I will address the issue of congruency, i.e. whether Morphophonology can be regarded as a separate sub-field of linguistics with independent theoretical properties and rules or rather as a merger between phonology and morphology. The latter point of view obviously begs the question whether morphological rules subsequently affect pronunciation or whether phonological properties determine not only the use of, but what is more, the need for allomorphs or in other words, whether, in terms...
